Thanks so much for catching this!

I updated this myself (easy enough to do). I'll use this correspondence as the evidence of approval.

Thank you,  
Tamar

Hi Tamar,

Looking quickly I noticed a minor error in the supp. file:

"Visit 3 has started in 2020 and will last 3 years" -- no actually it will be 4 years in duration (ending Jan 2024).

Just have them change this, and then tell them it's provisionally approved by SOL as long as that is done.

That's all that is needed to be done.

Thanks for taking care of it.

Robert
